

COMPANY PROFILE

Uniclox is a result-driven technology company - the leading service provider in Africa since 1945. Providing your business with an array of solutions that will improve your business.

2024

YOUR VISION OUR SOLUTION

Our tailor made solutions ensure accurate and efficient timekeeping and optimum workforce productivity, regardless of the industry or the size of your business.

Providing our clients with the peace of mind they deserve.

First established in 1939 as a maker of clocks, Uniclox was registered in 1945. Its longevity can be attributed to expertise and a commitment to remain at the forefront of cutting-edge technology.

WHAT WE OFFER

The Uniclox® Solution comprises of integrated software and hardware solutions for initial workforce clocking, right through to payroll integration. This provides a custom fit for your business aligned to specific requirements based on infrastructure, size and complexity. Underpinning all of our solutions is a proven suite of software modules researched and developed in-house. Our core modules are easy-to-use, intuitive and can be tailored to your business requirements.

SOLUTIONS

We offer a wide range of Time and Attendance, Access and Security Control Solutions that includes the latest biometric hardware and software.

DEVELOPMENT

Ground breaking software development inhouse that seamlessly integrates with all products and Payroll solutions.

SUPPORT

As part of our solution, we provide installation, support and maintenance throughout Southern Africa. Support is provided using various platforms.

FINANCE

We offer financing on all our solutions. This allows you to invest in a solution that fits your exact needs.

TRAINING

We provide our clients with training after installations and assist them to stay up to date with any new developments.

CALL CENTRE

Our Call Centre Agents provide our clients with telephonic support whilst using remote support platforms for any technical queries and assistance.

SOLUTIONS

Our solutions provide consistent, unbiased workforce management information to increase your workforce profitability and by decreasing labour and payroll processing costs. This reduces risk and fraud, which in turn improves labour performance and security.

“ SAFE. SECURE. PROTECTED.

With Vision Enterprise Platinum you will only pay for the capacity you need to use at that time, providing you with the option to scale upwards or downwards depending on your need for that pay period.

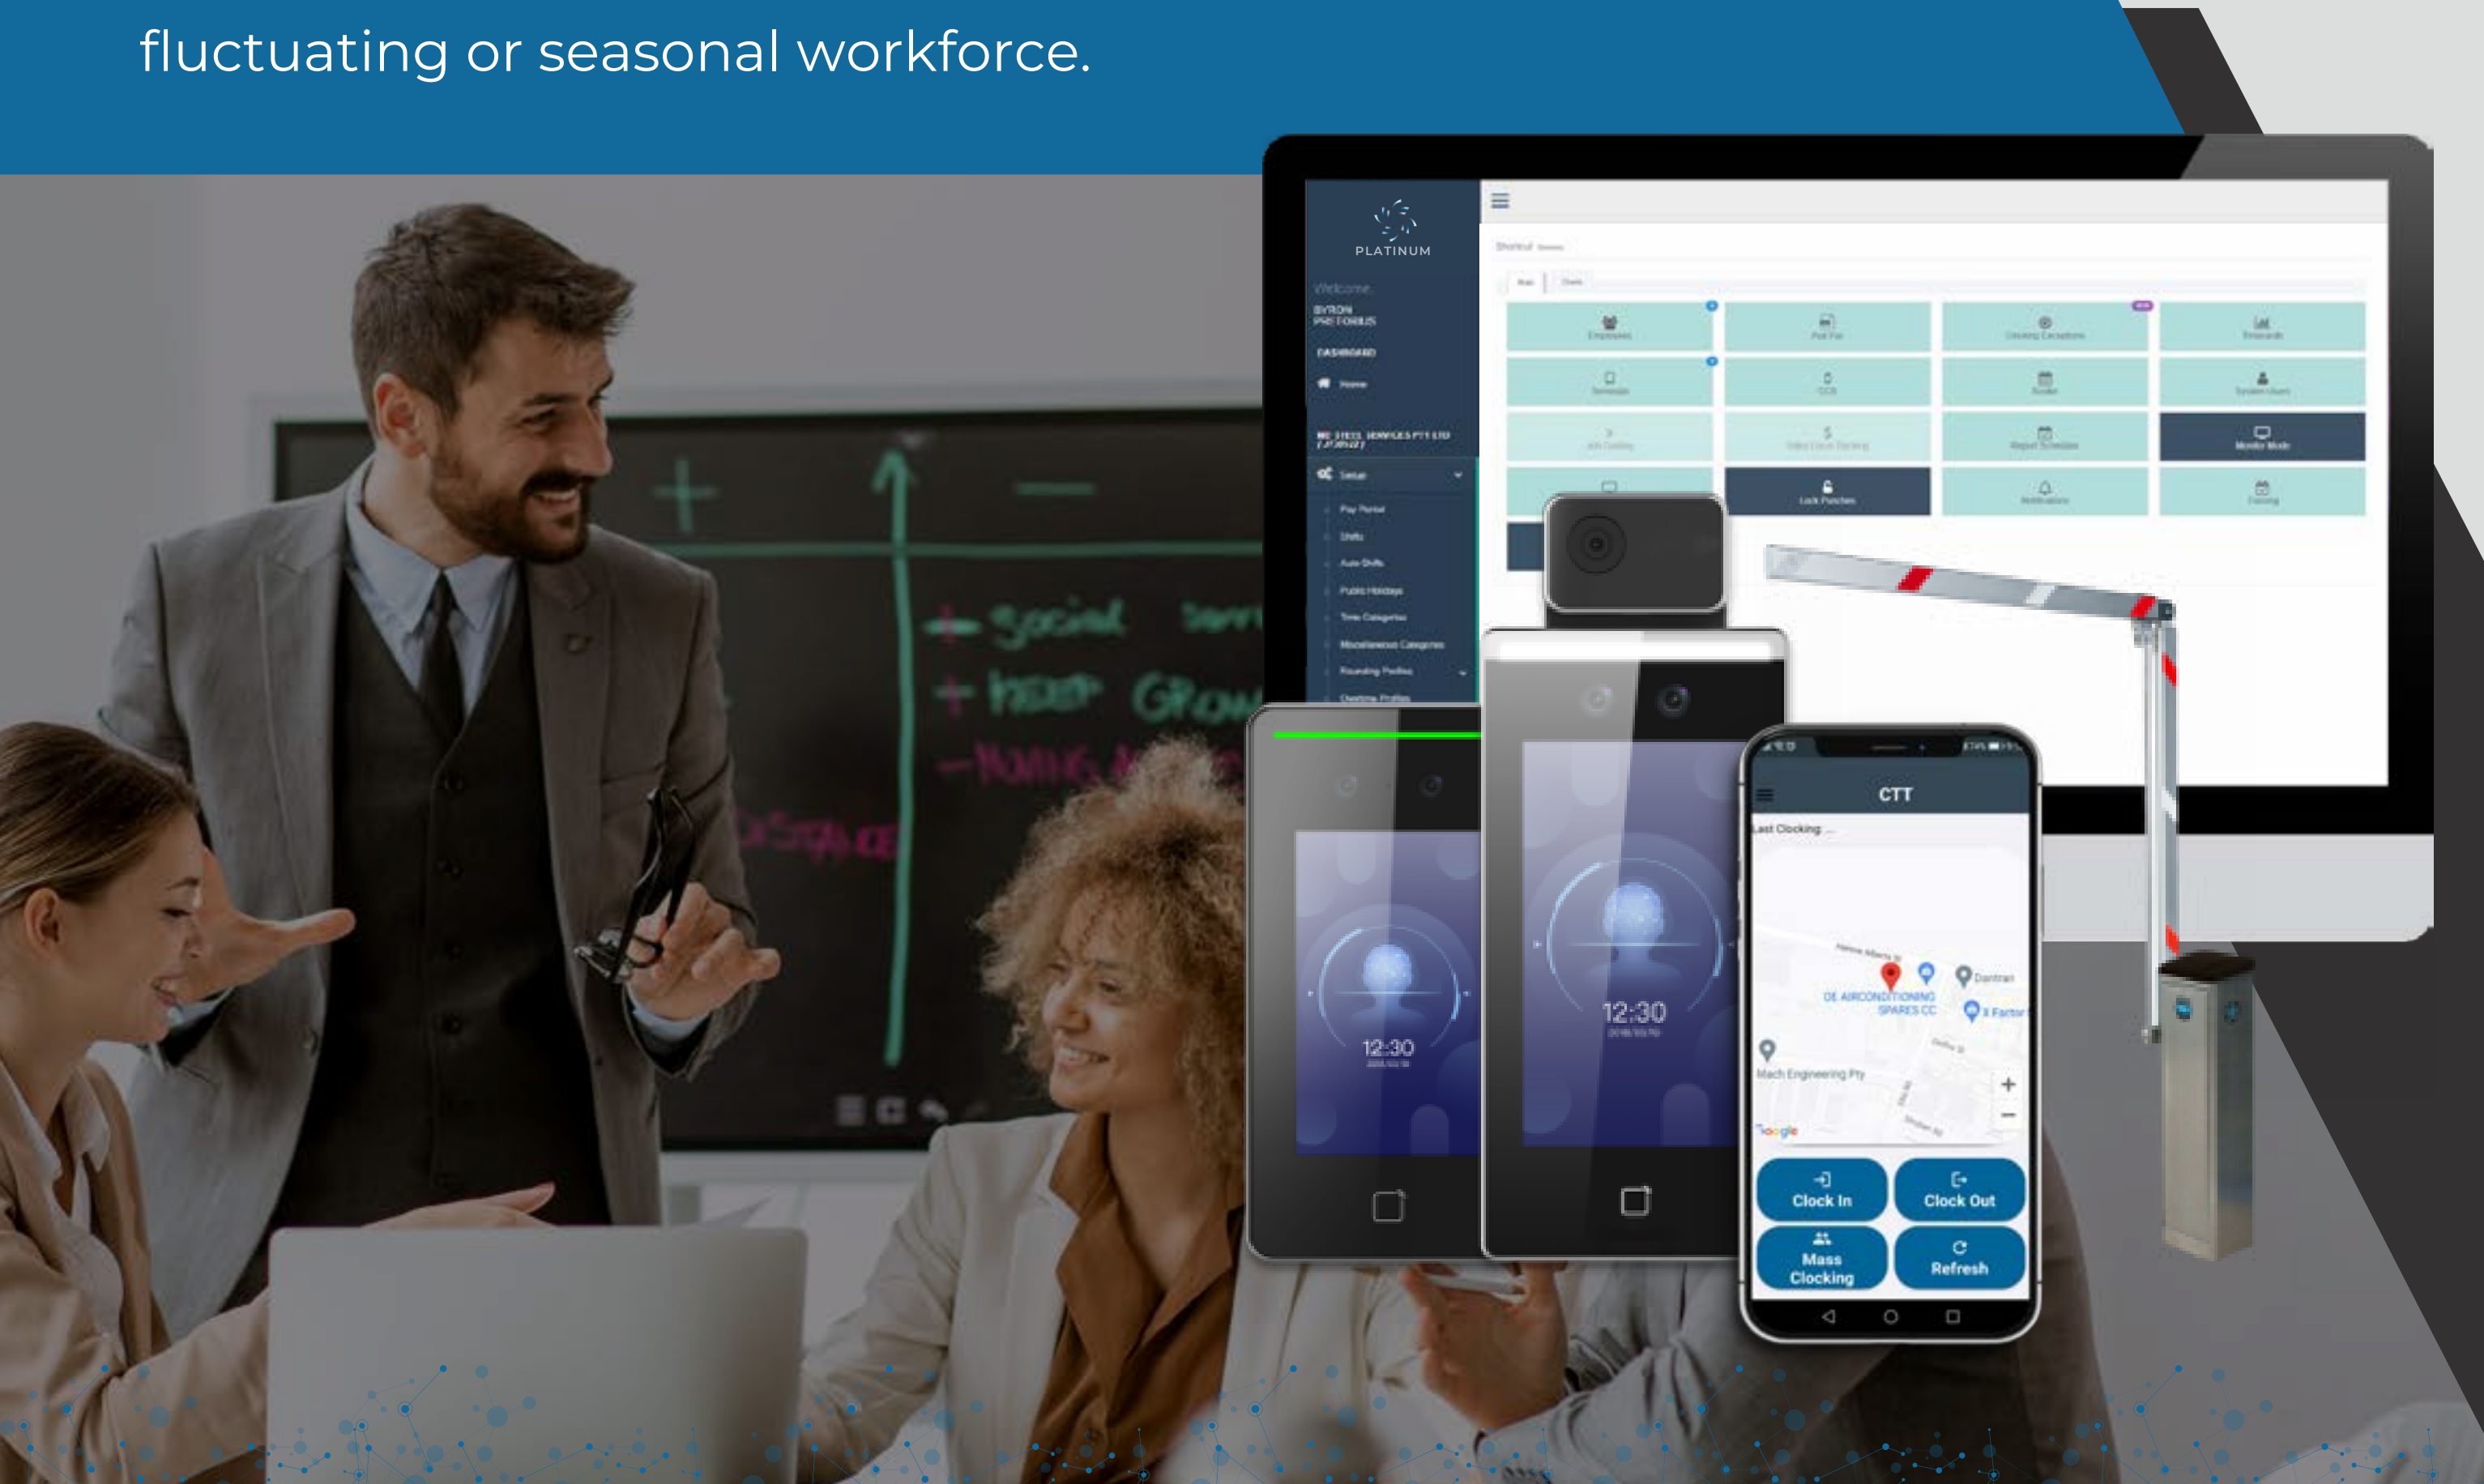

This is especially helpful for companies that have a fluctuating or seasonal workforce.

TIME AND ATTENDANCE **VISION ENTERPRISE PLATINUM**

Our Solutions include Cloud Based Time and Attendance Software which will allow the user to log in onto the software from anywhere in the world. Our software allows for easy navigation between employees with up to date reports which can be exported and emailed for distribution.

Employees will be able to clock using a variety of terminals including fingerprint, facial, mobile and iris recognition.

TIME AND ATTENDANCE REPORTS

Daily Timecard Report

Daily overtime and short time for quick and easy daily reference.

Introducing the new **PLATINUM MOBILE APP**

It's more than just keeping track of your employees' time and attendance... **it's the future of your business in your hands.**

Platinum Mobile enables you to clock large amounts of employees with one phone, using facial recognition.

THE FIRST AND ONLY **APP OF ITS KIND.**

Our full solution... using your phone.

FACIAL CLOCKING

Clock in or out using the front or back camera on your phone.

SITE CLOCKING

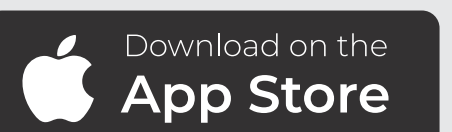

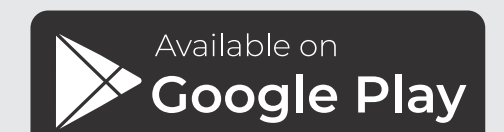

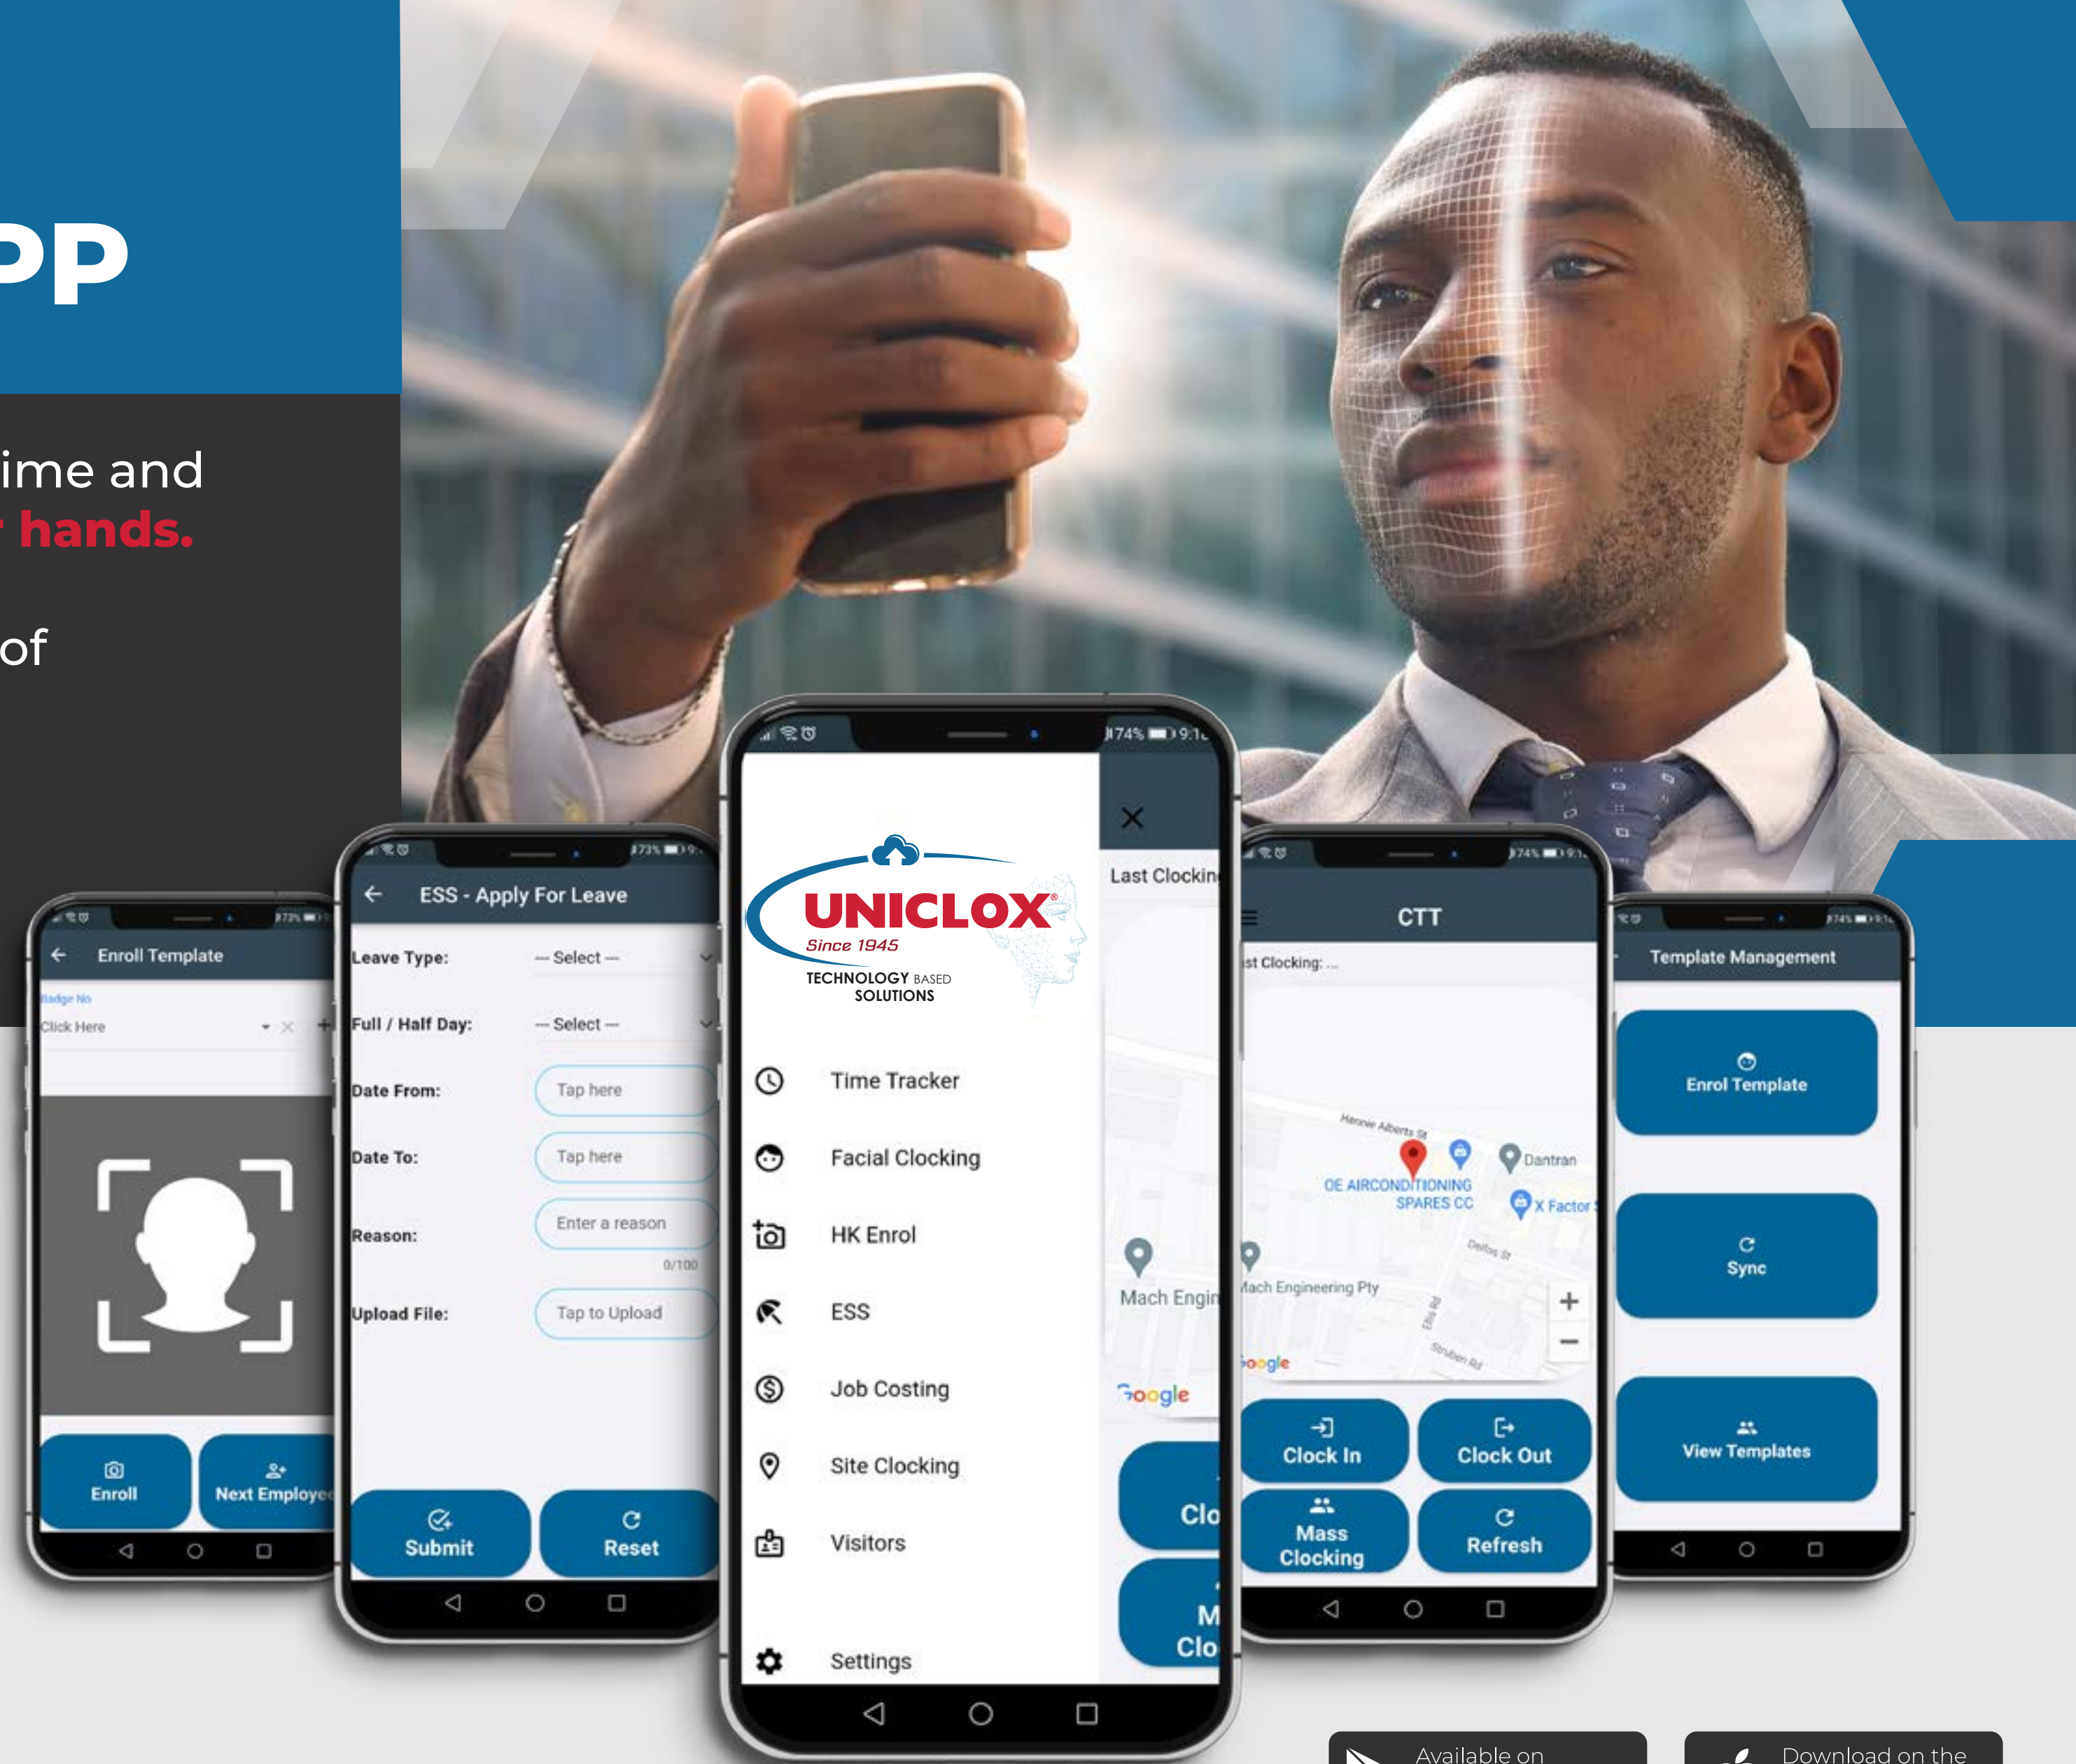

Clocking multiple staff with a single phone using facial recognition and geofencing

TIME TRACKER

GPS location is captured to ensure clocking in at the right location.

MORE FEATURES

Enrol visitors and employees. Keep track of projects. Apply for leave.

CREATE DIFFERENT TYPES OF TASKS:

Productive tasks	tasks required to manufacture a product
Non-productive	tasks not contributing to completion of the product
Waiting tasks	conditions affecting the production and manufacturing of a product

TIME AND ATTENDANCE **JOB COSTING**

Record the amount of time worked on a job from start to the end and track all the data on Uniclox Job Costing Software.

Create reports and accurately monitor productivity from an individual employee on a team.

Track a Job In a specific work centre or area that can be a specific building or allocated area inside a workshop.

UNI-H4 (WI-FI)

FACE RECOGNITION TERMINAL

The Uni-H4 (Wi-Fi) face recognition terminal adopts a deep learning algorithm, which helps to recognise the face faster with higher accuracy.

It also supports multiple authentication modes: face and RFID card authentication.

It has an IP65 rating and can be applied in multiple scenarios including outdoor areas and areas with high dust levels.

The terminal supports a Wi-Fi connection.

Facial
Recognition

RFID
Card
